DIY1095 Form Generator

You may be searching for a solution because your in-house payroll or third-party payroll administrator doesn't provide Form 1094/1095 reporting. Or perhaps this forms-reporting is available, but simply cost-prohibitive. Whatever your situation, one thing is certain— we have your back.

Product Highlights...

So, at a glance, what does the DIY Form Generator offer?

For starters, the DIY Form Generator is for employers with fewer than 250 forms to create. For these organizations, the DIY Form Generator features:

- An automated template for HR/Benefits professionals to generate compliant, accurate Forms 1094-C and 1095-C (or 1094-B and 1095-B for small employers)
- An intuitive “Wizard”, that prompts you to answer the right questions at the right time.
- A simple print feature once all data has been successfully entered.
- Online support tools and resources are available, should you need help along the way.
- A secure website and login– designed to help assure you that all the information entered remains safe and secure.

Through the DIY1095 Form Generator, you can help reduce the stress associated with administering the complexities of the Affordable Care Act (ACA). In addition, this tool helps ensure you are compliant with the ACA new regulations.

The DIY1095 Form Generator delivers a simple, easy-to-use mechanism to help you produce the 1094/1095 forms—without unnecessary headache or exorbitant cost.
